## THE MATTRESS

BABY with a 100% natural latex with 7 differentiated areas slab is produced with the most revolutionary material in the history of the mattresses and it creates a really high standard product. It's particularly suitable for those parents who like to rest their babies on as natural and very comfortable as possible supports.

The latex is a complex emulsion and it can vary depending on the species or individual plant that secretes it. The best and finest quality of natural latex is extracted from the plant *Hevea brasiliensis* in the tropical forests of Asia. It is absolutely the most resilient natural material that is known and it presents an extraordinary natural features hypoallergenic antibacterial. The fundamental characteristic is the natural and instantaneous ability of taking on again the original shape even if subjected to pressure or stretch. For this reason is one of best raw material to produce ergo-anatomic mattress. The internal latex slab is created from the mould and it is coated with a first cotton jersey fabric removable by zip. The mattress cover is made with an antiacarus and antibacterial textile, soft padding, and internal jersey. It is completely washable with water.
