THE MATTRESS

Caravaggio wisely mixes Memory Foam with 7 differentiated areas 100% natural Latex and creates a truly unique combination. It's particularly suitable for those persons who like to rest on as natural as possible and very comfortable supports.

The latex is a complex emulsion and it can vary depending on the species or individual plant that secretes it.

The best and finest quality of natural latex is extracted from the plant *Hevea brasiliensis* in the tropical forests of Asia. It is absolute the most resilient natural material that is known and it presents an extraordinary natural features hypoallergenic antibacterial.

The memory Foam Waterlily works thermally and it shapes itself to the body giving the feeling of being on a cloud.

The fundamental characteristic is the natural and instantaneous ability of taking on again the original shape even if subjected to pressure or stretch.

This system allows to sleep on the latex or on the memory foam giving the possibility to have 2 products in 1.

For this reason, the latex is among the best products to produce anatomical mattresses ergo-anatomical.

The internal latex slab is created from the mould and coated with a first fabric cotton jersey removable by zip. The final touch with high-density Memory Foam completes the work.

The mattress cover is made with a high percentage of bamboo fiber textile and it is completely washable with water.
