THE MATTRESS

Giorgione with a 100% natural latex with 7 differentiated areas slab is produced with the most revolutionary material in the history of the mattresses and it creates a really high standard product.

It's particularly suitable for those persons who like to rest on as natural as possible and very comfortable supports.

The latex is a complex emulsion and it can vary depending on the species or individual plant that secretes it.

The best and finest quality of natural latex is extracted from the plant *Hevea brasiliensis* in the tropical forests of Asia. It is absolute the most resilient natural material that is known and it presents an extraordinary natural features hypoallergenic antibacterial.

The fundamental characteristic is the natural and instantaneous ability of taking on again the original shape even if subjected to pressure or stretch. For this reason is one of best raw material to produce ergo-anatomic mattress.

The internal latex slab is created from the mould and it is coated with a first cotton jersey fabric removable by zip.

The mattress cover is made with a high percentage of bamboo fiber textile, soft padding 250gr/mq, internal jersey and it is completely washable with water.
