

PILLOWS

CAMILLO

Camillo is one of the most soft and comfortable pillows of cheap price. Its main feature is to resemble in every way to a fluffy support. It is soft, very fluffy, incompressible and it lasts a long even if subjected to repeated crushing. It always retains its original shape, it is pleasant to embrace, and it welcomes the head with no compression as suspended on a cloud.

FIOCCO

Fiocco is made with staple of Waterlily and it is an innovation in the way to sleep. Breathable and cool, it is made with fully recyclable materials. It is ideal for those who prefer a soft support, fascinating and at the same time decided, with feather-like effect. An important feature is the soft cotton bag that contains granular with the removable first covering in antiacarus technical textile, which makes the pillow very comfortable. The pillow Fiocco has a great capacity of self-adaptation to different pressures and it is particularly recommended in order to prevent or to treat allergic problems.

2 WAVES LATEX

The Latex is a 100% natural product that is extracted from the milky liquid of the Hevea brasiliensis also called rubber tree. The presence of ventilation holes on both sides ensures the maximum breathability. It maintains a constant temperature and ensures an effective moisture evaporation. Besides it avoids the onset of allergies and prevents cervical pains thanks to its characteristics of elasticity and flexibility. The particular model a double curve allows you to choose the thickness of support you want. Anatomical and ecological. Antibacterial external cover.

SAPONETTA LATEX

The Latex is a 100% natural product that is extracted from the milky liquid of the Hevea brasiliensis also called rubber tree. The presence of ventilation holes on both sides ensures the maximum breathability. It maintains a constant temperature and ensures an effective moisture evaporation. Besides it avoids the onset of allergies and prevents cervical pains thanks to its characteristics of elasticity and flexibility. Antibacterial external cover. (70 x 42 cm; 27⁹/₁₆in x 16¹⁷/₃₂in).

2 WAVES MEMORY

It is a thermosensitive, viscoelastic, open cells product. It ensures an exceptional comfort because it adapts to every need by reacting to heat and pressure. Thanks to its particular 2 waves shape, it supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation. Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest. It has a low conductivity in electrostatic and electromagnetic discharge because it is devoid of metallic substances. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover. (70 x 42 cm; 27⁹/₁₆in x 16¹⁷/₃₂in).

BIANCO MEMORY

It is a thermosensitive, viscoelastic, open cells product. It ensures an exceptional comfort because it adapts to every need by reacting to heat and pressure. It supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation. Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest.

It has a low conductivity in electrostatic and electromagnetic discharge because it is devoid of metallic substances. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover. (70 x 42 cm - h 13 cm; 27⁹/₁₆in x 16¹⁷/₃₂in - height 5¹/₈in).

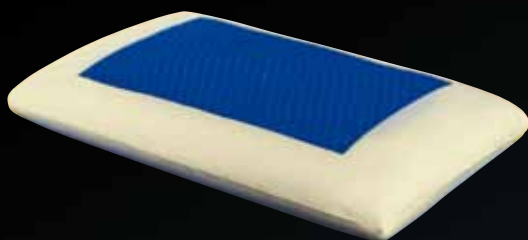

ALOE MEMORY

It is a thermosensitive, viscoelastic, open cells product. The adding of pure aloe gives considerable benefits recognized also by the medical field. It has antioxidant, anti-inflammatory and analgesic properties. The mix between nature and technology ensures an exceptional comfort, adapting to every need and reacting to heat and pressure. It supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation.

Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover. (70 x 42 cm - h 13 cm; 27⁹/₁₆in x 16¹⁷/₃₂in - height 5¹/₈in).

BIOGEL MEMORY

It is a thermosensitive, viscoelastic, open cells product. The biogel network makes it perfectly breathable and refreshing and it reduces the absorption of body heat. The mix between nature and technology ensures an exceptional comfort, adapting to every need and reacting to heat and pressure. It supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation.

Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest. It has a low conductivity in electrostatic and electromagnetic discharge because it is devoid of metallic substances. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover. (70 x 42 cm - h 13 cm; 27⁹/₁₆in x 16¹⁷/₃₂in - height 5¹/₈in).

SOYA MEMORY

It is a thermosensitive, viscoelastic, open cells product. The addition of soy creates a mix between technology and nature that ensures exceptional comfort adapting to every need and reacting to heat and pressure. It supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation.

Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest. It has a low conductivity in electrostatic and electromagnetic discharge because it is devoid of metallic substances. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover. (70 x 42 cm - h 13 cm; 27⁹/₁₆in x 16¹⁷/₃₂in - height 5¹/₈in).

LILLA MEMORY

It is a thermosensitive, viscoelastic, open cells product. It ensures an exceptional comfort because it adapts to every need by reacting to heat and pressure. It supports the cervical area in order to guarantee a best support of the neck, avoiding contraction and favouring circulation. Its specification are: long lasting, non-toxic, breathability, inalterability that make the most suitable product for an absolute healthy and natural rest. It has a low conductivity in electrostatic and electromagnetic discharge because it is devoid of metallic substances. It is particularly recommended for those who suffer from cervical pains. Antibacterial external cover.

(70 x 42 cm - h 13 cm; 27⁹/₁₆in x 16¹⁷/₃₂in - height 4²¹/₆₄in).
